“Resilience and Innovation within the Grasslands”

Join us again this November for our annual Fall Information Session! The FRF Fall session gathers a variety of industry and grassland stakeholders to exchange current information on grassland restoration and conservation through a variety of presentations and mini updates. While we are still compiling our agenda (full agenda will be released closer to the event), you can look forward to hearing about the following topics:

- *Innovative programs and legislation for renewable resources and affected landowners*
- *Updates on recovery in hard hit areas affected by fire*
- *Innovative grassland management of aspen encroachment and rangeland health*
- *Discussion of new legislation affecting development in grasslands and wetlands*
- *Landowner management to maintain grassland resilience and productivity*
- *And much more!*

We also welcome groups or individuals to set up tables/booths at the event as well (at no cost!). There are limited spaces available; therefore, if you have educational or relevant materials that you wish to display, please contact Donna at corporate@shaw.ca.

Early Bird Rate (Register by 5:00 pm October 15, 2018): \$80.00 per person
